

未来

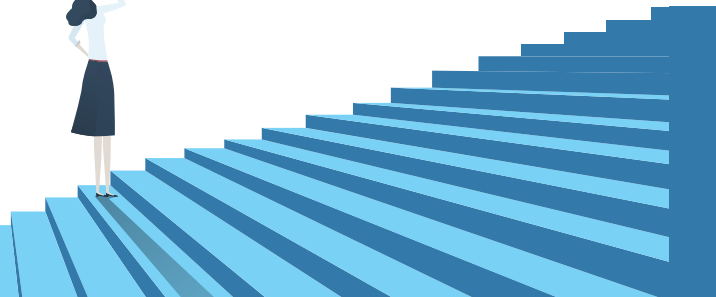

Quick Tips to
FUTURES

**Bringing
Foresight to
Taiwan**

Dr. Clement C.P. Chang
Founder of Tamkang University

Tamkang's mission toward future-oriented education is to recognize the future, adjust to the future, and create the future.

**The Future belongs
to those who believe
in the beauty of
their dreams.**

-Eleanor Roosevelt

Dr. Flora Chia-I Chang
Chairperson, Board of Trustees

**The best future is
the created future.**

Dr. Huan-Chao Keh
President, Tamkang University

FS What is Futures Studies

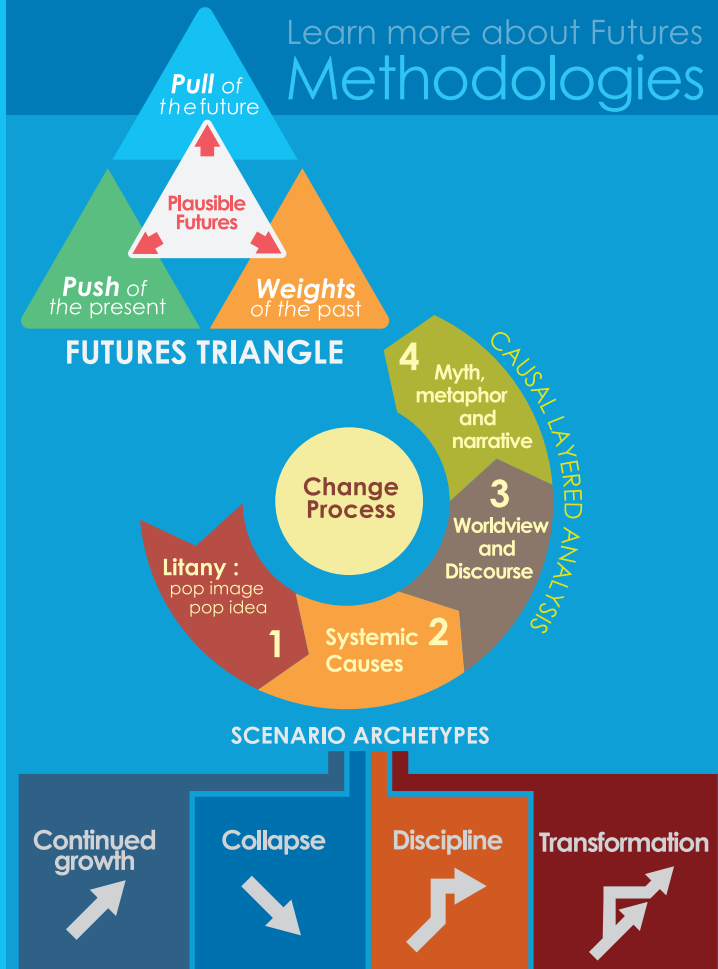

- FS is the study of possible, probable and preferred futures and the world-views and myth/metaphor that underlie them.
- FS is to create personal and organizational vision through systemic methods.
- FS is to explore the emerging issues that have shown some signals that might be weak or blurring.
- FS connects various time perspectives through past, present, and future to develop foresight capacity.
- FS is not just to study the future but to invent alternative futures.

FL What is Futures Literacy

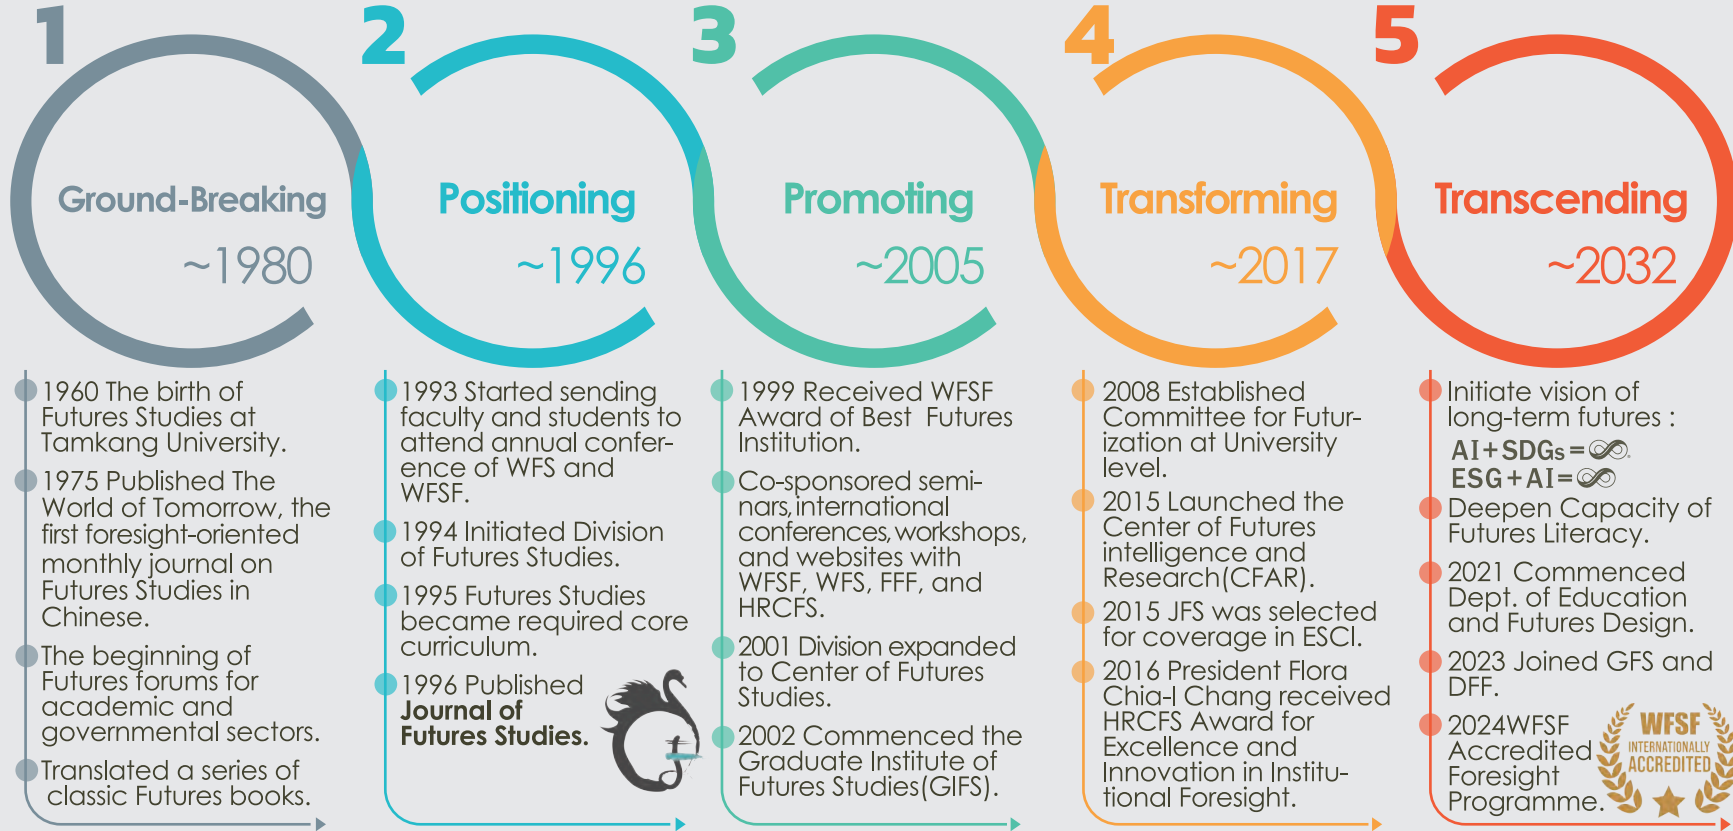

-Riel Miller, UNESCO

- Just as reading, writing, and math are essential skills for today, FL is an essential skill for the future.
- FL empowers the imagination. It enhances our ability to prepare, recover and invent in the face of change.
- FL is a competency that allows people to better understand the role of the future in what they see and do.
- FL improves our capacity to shape policies and systems that withstand shocks and create long-term resilience.
- FL uses collective intelligence to create novel knowledge about the future.
